Drum Crusher Model# DC7000-10 Diesel

The Model DC7000-10D with a Diesel Motor is a dual purpose machine. It can be used to compact waste inside of the drum or to crush the empty drum itself. It is used to crush a large volume of drums continuously. The Model DC7000-10D will crush a 55 gallon drum down to 2.5" in height greatly reducing storage space requirements and transport fees.

The unit comes complete with hydraulic door safety switch, and an oil sight gauge with temperature indicator. Heavy duty construction, all structural components are made with steel.

Standard Features:

- 10hp Diesel Motor
- Crushing force up to 85,000 pounds at 3000 psi
- Crush 55 gallon steel drum down to 2.5"
- Piercing point on the crushing plate
- 40 gallon hydraulic tank
- Fluid collection reservoir 4.5 gallons under the chamber
- Cycle time of 25 seconds
- Directional Control Valve
- Drum ring locator keep the drum aligned
- Compacting inside of drums using a second plate and 15" clear chamber
- Safety interlocks door, prevent operation while door is open
- Emergency stop push button and motor starter
- Portability with Fork Lift Truck
- 12 Volt Battery (Included)
- Safety features to comply with OSHA

Additional Options:

| | |
|---------------------------------------|--|
| Chamber for 85 gallon drum | Chamber enlarged for crushing 85 gallon drum |
| Dutch Door | This is a door that can open from the top and remain closed on the bottom for packing purposes |
| Fluid collection reservoir 30 gallons | Under the crushing chamber to collect any fluids inadvertently not removed prior to crushing the drum |
| Automatic drum ejection system | For ejecting the crushed drum out of the chamber |
| Automatic drum conveyor system | For moving the crushed drums to a dumpster or external container |
| Vent Fan | Heavy-duty Vents Fan. Custom & Std. sizes available |
| Hepa Filter | This type of air filter can remove at least 99.97% of airborne particles 0.3 micrometers (µm) in diameter. |
| Galvanized Finish | Protective coating of zinc to provide corrosion resistance |
