

TRASH CAN WASHER MODEL TCW-100

The TCW-100 is our brand new trash can washer unit. Constructed with high-quality stainless steel. It was designed with longevity, efficiency, and simplicity in mind. The only requirement is a simple 120v wall outlet and a source of water. Any sanitizer or soap solution can be used offering a high level of versatility. In combination with the utility of our high-pressure rotary wash nozzle, the TCW-100 is guaranteed to fully wash 360° of your container's surface area.
